

Automatic Drying Machine

JLX-830

JLX-830

Specification

Voltage:	380V/50HZ
Power:	9KW
Out Dimension:	131*185*185CM
Gross Weight:	230KG

Characteristics:

- 1.Imported infrared lamp open warm,penetrating drying effect,run the drying cycle of 3-6minutes to achieve the desired effect,fast drying after coloring,while oil plump,good gloss,can naturally dry shortening the drying time,increase efficiency
- 2.Temperature can be set between 50-250, speed can be adjusted
- 3.Single-station one-person operation,both at the same duplex operation,and do not bother.
- 4.Inside heat recycling,save energy and reduce costs
