

LINING IRONING MACHINE

CY-613

介绍

Introduction

- > The product is the ideal equipment for lining and pressing lining of leathers, especially applicable to the pressing and bonding of hot melt glue cloth and leather surface.
- > Comparing with traditional manual ironing and pressing, it has such advantages as high efficiency and good bonding effect.
- > The pressure, heating temperature and feeding speed can be adjusted.
- > Applicable for leathers of different thickness.
